

Nouveau 700

High Contour 580 Coil Count (Full Size). High profile mattress height with extra comfort layers with a additional support in the mid-body.

FEATURE

~ The Mattress Support System ~

BENEFIT

Lura-Flex Coil System
High Contour 580 Coil Unit
(Full Size)

The best offset design spring system available. Each coil flexes independently for more sensitivity to body contours, and more durability with less friction. High coil count and smaller coil diameter creates greater surface coverage and is designed for edge support.

~ The Mid-Body Support System ~

Flex Response Support Foam

Unique design works with coil system to provide extra support to the mid-body where it is most needed for proper body alignment.

Tri-Zone Mattress Quilting
Convulated Foam and
Comfort Layers
Posture Grid Center

Provides additional support and comfort to the mid-body to promote a healthy posture for overall back and spine wellness.

Provides long lasting mid-body support and protects mattress from sagging for longer mattress life.

~ Durable Comfort ~

Durable High Quality Foam and
Fiber Construction

Thick layers of fiber and foam protect coils from mattress top and is designed to resist top stretching. Provides superior comfort for a better quality of sleep.

~ Additional Features ~

Carry Handles and Mattress
Vents

8 easy side carry handles for convenience in moving and rotation of mattress. 16 Mattress vents allow air to circulate so mattress stays fresher and lasts longer.

~ Boxspring Support System ~

Boxspring / Foundation
Somma-Flex Support System

Limited Flex design allows for softer feel while strong steel design adds extra support and longer life. Compliments mattress design.

~ Warranty - 15 Years Limited ~
